Vicharana Tharkana

Software Engineering Undergraduate | Java & Spring Boot Developer | Full-Stack Web & Android Developer

tharkana.bandara@gmail.com +94 76 156 3214 Bandarawela Portfolio LinkedIn GitHub

Summary

Software Engineering undergraduate with hands-on experience developing full-stack web, Android, and machine learning applications. Skilled in Java, Spring Boot, React, JavaScript, MySQL, and REST API development, with experience implementing authentication, database integration, and recommendation systems. Passionate about building practical software solutions and continuously expanding technical skills.

Education

Open University of Sri Lanka 2021 – Present

Bachelor of Software Engineering (Honours) GPA-3.04

Projects

CareerPath Sri Lanka (Full-Stack Web Application) 2025 – Present

- Developed a full-stack career guidance platform to help Sri Lankan students discover relevant courses, universities, and career opportunities based on their academic qualifications.
- Implemented JWT authentication, role-based access control using Spring Security, and an academic qualification-based recommendation system.

Tech Stack : Java, Spring Boot, Spring Security, React, MySQL, Spring Data JPA, JWT
GitHub

Gemini-Powered E-Commerce Customer Support Chatbot 2025

- Developed an AI-powered customer support chatbot using Google Gemini API to handle product inquiries, order tracking, and shipping-related queries.
- Implemented Retrieval-Augmented Generation (RAG) with Astra DB and conversation memory to provide relevant, context-aware responses.

Tech Stack: Next.js, TypeScript, Google Gemini API, Astra DB
GitHub

Explore City Android Application 2023

- Developed a Java-based Android application to help users explore cities through location-based information and navigation features.
- Integrated Google Maps API, compass functionality, and SQLite for map navigation and local data management.

Tech Stack: Java, Android Studio, Google Maps API, SQLite
GitHub

Vehicle Care System (Web Application) 2024

- Developed a web-based vehicle maintenance system to streamline service bookings and vehicle maintenance management.
- Implemented database operations to manage user information, service records, and maintenance history.

Tech Stack: HTML, CSS, JavaScript, PHP, MySQL
GitHub

Technical Skills

Languages & Frontend : **Java, JavaScript, TypeScript, React, Tailwind CSS, HTML,CSS**

Backend & Databases : **Spring Boot, Spring Security, Express.js, REST APIs, JWT, MySQL, SQLite**

Tools & Platforms : **Git, GitHub, IntelliJ IDEA, VS Code, Android Studio**
